

NATHAN CASAREZ

Software Engineer

SUMMARY

Creative, detail-oriented software engineer with a deep passion for creating extraordinary digital experiences. Proven track record of creating and launching successful front- and back-end web applications. Looking to bring my skills to a product team with global reach.

WORK EXPERIENCE

Software Engineer at 100Devs | Los Angeles, CA

October 2023 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full-stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

Spaced Repetition (Full-stack Web App) – Users can log in and track their learning progress through various web technologies. Ability to rate their active recall sessions with a historical view of past sessions.

Task Manager (Full-stack Web App) – Users can log in to their profile and find their list of pending tasks. They can add new tasks through an input, which they can then edit or schedule due dates.

Other Projects: Full-stack learning app for the 100Devs agency, NASA Daily Snapshot Web App with NASA API integration, Static website for Ayesha Hair Salon and many more

Full Stack Web Developer (Self-employed) | Remote

December 2020 — Present

Created full stack web applications and static websites for different clients across small and medium size businesses. Also, consulted on SEO and social media strategy, and copy editing. Some clients include:

Bourbon Society – A full-stack web application built on React and Next.js. It features stunning bar and restaurant visuals, along with back-end functionality to capture dinner reservation data, blog comments and contact form submissions.

Rose Bakery – A multi-page website for Rose Bakery with a heavy emphasis on dynamic visuals, including a rotating homepage banner, slideshows and crisp images. Includes a custom-made logo.

Worthington Enterprises – A WordPress website for Worthington Industries employees to view their annual benefits enrollment information. It was built on a custom WordPress theme, along with original copywriting and wireframe layout.

Client Technology Lead at Buck Consultants | San Francisco, CA

January 2014 — March 2020

Handled and tested benefits information for internal client websites that served more than 1,000 employees at several leading Bay Area companies, including Cisco and Safeway.
